ADVANCED ROOFING SERVICES

Formed in 1993 and is the South East's premier industrial and commercial roofing contractor.

We work with building owners, engineers, architects and consultants to provide bespoke solutions to our clients' building envelope requirements.

We pride ourselves in offering a highly competitive and efficient service, from initial survey right through to completion and handover.

We are approved by the major roofing and cladding material manufacturers and are therefore able to offer the option of extended warranties backed by either the manufacturers themselves or by third party insurance schemes.
